

Australian Packaging Covenant
Action Plan

2015

EXECUTIVE SUMMARY

D'Orsogna Ltd is a privately owned West Australian company.

At D'Orsogna our primary objective is to provide our customers with the highest quality products and with excellent service.

D'Orsogna is committed to reducing the effects of packaging waste on the environment and continues to seek out the best economical, technical, safe and environmentally friendly packaging solutions.

D'Orsogna is committed to waste reduction and identifying viable ways to recycle or re-use packaging products without compromising the integrity of our product range

This Action Plan will cover the period of 2015 calendar year and will include all of our manufacturing facilities.

Brad Thomason
Managing Director

Background

The D'Orsogna family has been making quality hams and continental salami products for over 65 years.

This family owned business is located on the outskirts of Fremantle in Palmyra, Western Australia. Since commencing the business in 1949 the Company has steadily grown to become the leading brand in Western Australia's food industry.

Due to strong business growth, D'Orsogna has opened a manufacturing premise in Melbourne, Victoria and is now recognised as a national supplier of its quality products within the Australian retail and food service markets.

D'Orsogna has come a long way since it commenced business as a small Butcher Shop in Stone Street, West Perth, to now employ over 450 people at its manufacturing facilities.

D'Orsogna is still a Western Australian family owned business with the families still being very actively involved and holding majority representation at Board level.

Whilst the company retains its family values, today it operates as a corporate entity with the highest business standards of governance and a strategic vision for the future.

D'Orsogna is a Brand Owner and markets products under the brands "D'ORSOGNA" and "RIVERLAND".

D'Orsogna has established an APC team to drive continuous improvement in Sustainable packaging sourcing, utilisation and recycling.

Packaging

The main types of packaging employed to contain and transport D'Orsogna products are:

Plastic Bags
Cardboard Boxes
Fibrous Casings
Plastic Casings
Cellophane sheets
Plastic Films
Labels
Plastic netting
Flexible netting
Bone guards
Parchment
